

Board of Directors CHAIR Report

April 2024

Having completed my second year as Chair it has once again been very busy.

The Board of Directors has met each month, except for July and August (2023) and February (2024).

The Directors on the Board have been very influential in replacing our Auxiliary uniforms which were presented to members at the Christmas Luncheon. Although there were some issues regarding comfort and usability with the new uniforms the membership worked together to ease the discomfort.

In partnership with the Foundation, we once again operated the Smile Cookie campaign for Tim Horton's. This was a fun, active, and productive event for all who volunteered, raising significant funds for the Digital Imaging Campaign.

Our Tag Day in June and Cookie Delight in December were also very successful, under the leadership of Susan Bionda. The Christmas Wish incentive was won by the Food and Services Department in December.

All of our Bylaws were revised in September 2023. This was a necessary action as the Auxiliary is now incorporated. There were many changes in titles, descriptions, etc., that needed to be rewritten.

In my role as Chair, I served on the MAHC Visioning Sessions with Tenzing which led to our new "Made in Muskoka Healthcare" motto. This happened in concert with the Capital Redevelopment Committee of which I was a representative for the Lobby User group.

I am very proud to have received the Ontario Volunteer Service Award in August. The event was fun and inspiring as we were able to witness those volunteers in the community who have been volunteering for MANY, MANY years.

Respectfully submitted

Susan Love
